

Coronavirus (COVID-19): Outbreak Management Plan

Date Approved	Circulated to FGB 23.8.21
Date of Next Review	As Guidance/Updates Require
Policy Owner	Head Teacher
Approved by	Circulated to FGB 23.8.21

Contents:

1. The aim of this plan
2. Restrictions to attendance
3. Infection prevention and control
4. Transport
5. Teaching and learning
6. Asymptomatic testing (staff)
7. Returning to school
8. Exams and assessments
9. Safeguarding
10. Wraparound care
11. Food provision
12. Communication
13. Monitoring and review

Please note: this plan has been created in line with the latest government advice regarding contingency planning as set out in the DfE's '[Contingency framework: education and childcare settings](#)' and '[Schools COVID-19 operational guidance](#)' documents. The government has made it a national priority that education and childcare settings should continue to stay open as much as possible during the coronavirus (COVID-19) pandemic. Any restrictions on education would only be as a last resort and should only be initiated following a ministerial decision on a case-by-case basis.

1. The aim of this plan

If our school or local area sees an extremely high prevalence of coronavirus (COVID-19) infection rates and existing measures in our community have failed to reduce this, the appropriate authorities will decide which additional measures to implement to help contain the spread. These measures may involve implementing a number of restrictions, which could include the partial closure of schools and childcare settings in our area. Measures may also be necessary to help minimise the impact from new coronavirus variants.

This outbreak management plan outlines how the school will operate if further restrictions are implemented. The school will work closely with the local health protection team (HPT) and implement provisions as advised by the team.

This is a live document that will be reviewed by the headteacher, in conjunction with other key stakeholders, as and when the situation develops.

2. Restrictions to attendance

The government has advised that all schools should continue to operate as normal and that all pupils should attend school unless required to self-isolate.

The contingency framework is designed to act as a containment measure where:

- There is extremely high prevalence of coronavirus.
- Other measures have already been implemented.
- There is a need to minimise the impact from a new coronavirus variant.

Restrictive attendance measures, of the kind set out in the contingency framework, must not be implemented by schools without the explicit agreement of the DfE.

Restricting attendance in any form will only be used as a last resort, initiated following a ministerial decision. Where restrictions to attendance are implemented following government advice, they will be kept to a minimum, allowing for the maximum number of pupils to attend education; however, in all circumstances, priority will be given to vulnerable pupils and the children of critical workers to attend full time.

As part of their outbreak management responsibilities, LAs, Directors of Public Health, and HPTs may advise individual settings or a cluster of closely linked settings to limit attendance in one of the ways described in this section.

Where LAs judge that wider containment action is needed and wish to limit attendance within an area, they will work with their Regional Partnership Team to escalate a proposal to the central Local Action Committee command structure.

Early years settings as part of a primary school

School-based nurseries in primary schools will have the discretion to follow the arrangements set for the primary school.

Primary schools

Unless advised otherwise, the school will allow all pupils to attend. If the contingency framework is implemented, the school will only allow the following pupils to attend on-site provision:

- Vulnerable pupils
- Children of critical workers
- Pupils in Reception and Years 1 and 2, where advised by the DfE

High-quality remote education will be provided for all pupils not in attendance, in line with the Pupil Remote Learning Policy.

The school will lift restrictions as soon as it is advised by the government that it is appropriate to do so.

3. Infection prevention and control

The school's Risk Assessment, which sets out measures to control infection as best as is possible, will continue to be adhered to – this policy meets the requirements set out in the DfE's system of controls.

Any member of the school community who displays symptoms of coronavirus will be required to self-isolate and encouraged to get a confirmatory polymerase chain reaction (PCR) test. Tests can be booked online or ordered by telephone via NHS 119. Critical workers, including school staff, have priority access to testing.

All schools are currently being provided with rapid-result lateral flow device (LFD) testing kits to identify asymptomatic cases of coronavirus amongst staff.

If a variant of coronavirus classed as a variant of concern (VoC) is identified within the school's geographical area, the school will partake in targeted testing by the Department of Health and Social Care (DHSC) to help suppress and control any possible new cases. The school will also adhere to advice from Directors of Public Health in relation to the temporary reintroduction of face coverings.

Pupil displays symptoms whilst on site

If a pupil develops symptoms of coronavirus while on site, they will be taken to a designated isolation area while they wait to be collected. If required, the pupil will be supervised while they await collection. If the supervising member of staff is unable to socially distance, e.g. due to the pupil's age or needs, they will wear PPE.

After the pupil has left the premises, any areas they were in will be cleaned. The pupil's parents will be encouraged to get their child tested with a confirmatory PCR test as soon as possible. If the result is positive, the pupil will be required to self-isolate for at least 10 days.

Staff member displays symptoms whilst on site

If a staff member develops symptoms while on site, they will be directed to go home immediately to self-isolate and to get a PCR test. Cover arrangements will be put in place.

Stockton-on-Tees COVID-19 reporting processes September 2021.

As has been the case throughout the pandemic, going into the new term the local SBC Public Health team will continue to provide advice and guidance to schools and further education settings regarding COVID-19. These are the local reporting processes and requirements for local action by schools:

Close Contact Isolation

Any staff members or pupils who have been in close contact with a symptomatic individual at school will not need to self-isolate unless they develop symptoms themselves. Fully vaccinated adults, and pupils under the age of 18, who have been identified as close contacts of a positive case via the NHS Test and Trace service, will not need to self-isolate unless advised by a healthcare professional. Individuals also do not need to self-isolate if:

- They live in the same household as someone who has tested positive for coronavirus, unless they develop symptoms themselves.
- They have taken part in or are currently part of an approved COVID-19 vaccine trial.
- They are not able to get vaccinated for medical reasons.

Instead, they will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test. Staff who do not need to isolate, and children and young people aged under 18 years 6 months who usually attend school, and have been identified as a close contact, should continue to attend school as normal. They do not need to wear a face covering within the school, but it is expected and recommended that these are worn when travelling on public or dedicated transport.

Adults who receive their second dose of the vaccine close to 16 August will need to continue to follow the same rules as unvaccinated adults until two weeks after their second dose. Unvaccinated adults and adults who have only had one dose of the vaccine will need to continue to follow the rules on self-isolation if they have been identified as a close contact of a positive case.

Those aged 18 will continue to follow the same rules as under-18s until six months after their 18th birthday, when they will begin to follow the self-isolation rules for adults. Government guidance previously said 18 years and four months.

Single Cases

As with positive cases in any other setting, NHS Test and Trace will now work with the positive case and/or their parent to identify close contacts. Contacts from a school setting will only be traced by NHS Test and Trace where the positive case and/or their parent specifically identifies the individual as being a close contact. Schools are not required to report single cases into the local public health team.

Multiple cases

As has been the case throughout the pandemic schools should continue to work with the local public health team regarding COVID-19 cases in their setting and always seek advice in the following circumstances:

- 5 children, pupils, students or staff (or 10%), who are likely to have mixed closely*, test positive for COVID-19 within a 10-day period

Or

- If any case of COVID-19 in school has resulted in that person being hospitalised

*in the same cohort, for example class/year group/activity group/friendship group/home to school transport

Contact tracing may be reinstated in exceptional circumstances if there is an outbreak within the setting, in this situation the Stockton-on-Tees Public Health team will work with the setting to identify infectious periods and will provide template letters to share with identified contacts and whole school.

When a threshold is reached, the school will review and reinforce the testing, hygiene and ventilation measures already in place. The school will also consider:

- Whether any activities can take place outdoors, e.g. exercise, assemblies, or classes.
- Ways to improve ventilation indoors that will not significantly impact thermal comfort.
- One-off enhanced cleaning, focussing on touch points and any shared equipment.

A director of public health may provide the school with advice that reflects the local situation. In areas where rates of positive cases are high, this could mean that the thresholds for extra actions are higher than the threshold set out above.

As the result of an outbreak during step 4 of the coronavirus recovery roadmap, a temporary requirement could be implemented for staff to resume wearing face coverings in areas other than crowded spaces where they are likely to come into contact with others they would not normally meet. This may include face coverings being reintroduced in communal areas and classrooms for members of staff. The school may also be required to reintroduce the use of bubbles in order to resume social distancing and limit the transmission of coronavirus. The school will adhere to any conditions set out by the local HPT.

4. Transport

The government has removed the legal requirement to wear face coverings but expects and recommends that they are worn in enclosed and crowded spaces where you may come into contact with people you don't normally meet – this includes public and dedicated transport to schools. If pupils and staff need to use public or dedicated transport, they may be asked to wear a face covering while travelling, unless exempt in line with government guidance, e.g. due to a disability.

Transport services to and from the school will continue to operate as normal during times of local restriction where pupils are still attending. In the event that such services are not able to operate as normal, the headteacher will consider alternative options and communicate these to all parents and pupils in advance.

5. Teaching and learning

If restrictions to on-site education are required, the school will offer immediate access to high-quality remote education for all pupils who are required to remain at home. All remote learning will be delivered in line with the school's Pupil Remote Learning Policy.

Where advised during a local outbreak, further restrictions may be enforced with regards to certain musical and drama activities, e.g. singing, for pupils attending on-site provision, to help reduce the risk of transmitting coronavirus via aerosols. Restrictions may also be reintroduced to contact and indoor sports. The school will follow the advice provided by the local HPT.

The school will use a range of remote teaching methods to cater for all different learning styles. Teachers will ensure lessons are suitable to the class group's age and ability, inclusive for all pupils, and will be adapted, where necessary, to account for the needs of disadvantaged pupils and pupils with SEND.

When teaching pupils who are working remotely, teachers will:

- Set assignments so that pupils have meaningful and ambitious work each day.
- Deliver a planned, coherent and well-sequenced curriculum which allows skills to be built incrementally.
- Provide frequent, clear explanations of new content through high-quality curriculum resources, including through educational videos.
- Assess progress by using questions and other suitable tasks and use assessment to ensure teaching is responsive to pupils' needs and addresses any critical gaps in pupils' knowledge.

- Adjust the pace or difficulty of what is being taught in response to questions or assessments, including, where necessary, revising material or simplifying explanations to ensure pupils' understanding.
- Provide opportunities for interactivity, e.g. questioning and reflective discussion.
- Provide scaffolded practice and opportunities to apply new knowledge.
- Enable pupils to receive timely and frequent feedback on how to progress, using digitally-facilitated or whole-class feedback where appropriate.
- Plan a programme that is of equivalent length to the core teaching pupils would receive in school, ideally including daily contact with teachers.

In exceptional circumstances, the school may reduce its curriculum offering to enable pupils to cope with the workload – the headteacher will assess this need, keeping pupils' best interests in mind, and will not take the decision lightly.

Teachers will continue to make use of formative assessments throughout the academic year, e.g. quizzes.

The school will utilise the support available through the DfE's '[Get help with technology during coronavirus \(COVID-19\)](#)' scheme. Under the scheme, the school can order laptops, tablets and 4G wireless routers to support the following groups of pupils if they do not have access to a digital device or the internet through other means:

- Clinically extremely vulnerable pupils across all year groups who are not attending school in line with government and/or clinical advice
- Pupils in all year groups whilst attending school on a hospital site
- Pupils in any year group who have been advised to shield because they, or somebody they live with, are clinically extremely vulnerable

Before distributing devices, the school will ensure:

- The devices are set up to access remote education.
- Appropriate safeguarding controls and support are in place to help pupils and their families use the devices safely.

Once devices are ready for collection, the school will either arrange for them to be collected by families from school or delivered to pupils' homes, ensuring infection control measures are adhered to as part of this process.

6. Asymptomatic testing (staff)

Testing remains important in reducing the risk of transmission of infection within schools. That is why, whilst some measures are relaxed, others will remain, and if necessary, in response to the latest epidemiological data, we all need to be prepared to step measures up or down in future depending on local circumstances. Staff at Prior's Mill will be encouraged to resume voluntary twice weekly LFD from 29th August 2021. In line with national guidance, this will be reviewed at the end of September. It is possible that testing may be increased/stepped up in response to an outbreak following advice from the local HPT or Public Health.

7. Returning to school

The headteacher will work with the LA to ensure pupils only return to school when it is safe for them to do so. Prior to the return of more pupils and staff, all relevant risk assessments will be reviewed.

The headteacher will inform staff, pupils and parents, prior to the return to school, whether any further restrictions, such as the use of bubbles and face coverings, have been resumed.

After a period of self-isolation, or the relaxation of restrictions, the headteacher will inform parents when their child will return to school.

The headteacher will listen to all concerns that parents may have about their child returning to school and will advise them of the measures in place to ensure the safety of their child.

8. Exams and assessments

The school will remain open for any exams and assessments such as Phonics Screening, MTC, KS2 SATs, planned in line with current government guidance.

Wherever necessary, the school will implement additional mitigations to ensure the safe delivery of exams and assessments, which may include:

- Wearing face coverings in communal areas, where directed.
- Two-metre spacing between all desks, where directed.
- Additional controls for candidates who are classed as clinically extremely vulnerable. This may include measures such as seating them in a separate room to other candidates or, in exceptional circumstances, at the candidate's home.

9. Safeguarding

Ensuring safeguarding arrangements remain effective during periods of restricted attendance is a key priority. Our Child Protection and Safeguarding Policy has been updated to include provisions for keeping pupils safe during the coronavirus pandemic, both at home and in school – we will continue to follow these procedures for pupils who remain at home, where appropriate, until all pupils are able to return to school.

We will continue to ensure that:

- The best interests of pupils always come first.
- If anyone in the school has a safeguarding concern about a pupil, they act immediately.
- A DSL or deputy DSL is always available.
- Unsuitable individuals are not permitted to work with pupils or come into contact with pupils whilst on site.
- Pupils who remain at home are protected when they are online.

A trained DSL or deputy will remain on-site where possible. Where this is not possible, e.g. they are required to self-isolate, the school will ensure that the DSL or deputy, or a DSL or deputy from another school, are available to contact at all times. In addition, the headteacher will take responsibility for coordinating safeguarding on-site during this time.

10. Wraparound care

The school's Breakfast Club is available to all registered pupils.

11. Food provision

We will provide meal options for all pupils who are attending school.

We will provide FSM or food hampers to eligible pupils who are not attending school, where they:

- Are self-isolating.
- Have had symptoms or have tested positive.
- Are not attending due to the implementation of local restrictions advised by the government.

The school catering team will work with our food providers to prepare meals or food hampers, for collection or delivery, to eligible children during their time at home.

12. Communication

The school will communicate its plan for addressing any imposed restrictions with parents, including in relation to:

- Opening arrangements.
- Access for specific targeted groups where applicable, such as certain year groups, vulnerable pupils and children of critical workers.
- Any reviews of the school's protective measures as part of our risk assessments.
- The arrangements for remote working.

All relevant stakeholders will be kept up-to-date with the circumstances of any imposed restrictions and how these affect the school as the situation develops.

If any member of the school community wishes to discuss any concerns relating to the school's provision during this period, they should contact the following as appropriate:

- Staff – their line manager
- Pupils – their class teacher
- Parents – phase leader in the first instance, Deputy Head and Headteacher subsequently

13. Monitoring and review

This plan will be reviewed continually by the headteacher in line with guidance from the government and Public Health England (PHE).

Any changes to the plan will be communicated to all relevant stakeholders as soon as possible.
