

# Relationships and Health Education Policy

<b>Date Approved</b>	September 2021 (reviewed September 23)
<b>Date of Next Review</b>	September 2024
<b>Policy Owner</b>	Head Teacher
<b>Approved by</b>	Full Governing Board

Relationships and health education in primary schools became compulsory in September 2020 as planned; however, due to the impact of the coronavirus (COVID-19) pandemic, schools have been offered flexibility on when to begin delivering these subjects within the 2020/2021 academic year.

Schools that are prepared to deliver teaching in these subjects and have assessed that they meet the requirements in the DfE's '[Relationships education, relationships and sex education \(RSE\) and health education](#)' guidance are encouraged to begin delivering teaching as soon as practically possible, and no later than the start of the Summer term in 2021.. In these cases, a phased approach should be used (if needed) when introducing the subjects.

## **Statement of intent**

At Prior's Mill CE Primary School, we understand that pupils must be provided with an education that prepares them for the opportunities, responsibilities and experiences of adult life. A key part of this relates to relationships education, which must be delivered to every primary-aged pupil. Primary schools also have the option to decide whether pupils are taught sex education. State-funded primary schools are also required to teach health education.

Relationships education focusses on giving pupils the knowledge they need to make informed decisions about their wellbeing, health and relationships, and to build their self-efficacy. Health education focusses on equipping pupils with the knowledge they need to make good decisions about their own health and wellbeing.

We understand our responsibility to deliver a high-quality, age-appropriate and evidence-based relationships and health curriculum for all our pupils. This policy sets out the framework for our relationships and health curriculum, providing clarity on how it is informed, organised and delivered.

## **1. Legal framework**

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2019) 'Relationships Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2013) 'Science programmes of study: key stages 1 and 2'
- DfE (2021) 'Teaching about relationships, sex and health'

This policy operates in conjunction with the following school policies:

- Child Protection and Safeguarding Policy
- Behaviour Policy
- SEND Policy
- Inclusion Policy
- Equal Opportunities Policy
- Anti-Bullying Policy
- Online Safety Policy
- Visitor Policy
- PSHCE Policy

## **2. Roles and responsibilities**

The Governing Body is responsible for:

- Ensuring all pupils make progress in achieving the expected educational outcomes.
- Ensuring the curriculum is well led, effectively managed and well planned.
- Evaluating the quality of provision through regular and effective self-evaluation.
- Ensuring teaching is delivered in ways that are accessible to all pupils with SEND.
- Providing clear information for parents on subject content and their rights to request that their children are withdrawn.
- Making sure the subjects are resourced, staffed and timetabled in a way that ensures the school can fulfil its legal obligations.
- Ensuring the religious ethos of the school is maintained and developed through the subjects.

The Headteacher is responsible for:

- The overall implementation of this policy.
- Ensuring staff are suitably trained to deliver the subjects.
- Ensuring that parents are fully informed of this policy.
- Reviewing requests from parents to withdraw their children from the subjects.
- Discussing requests for withdrawal with parents.

- Organising alternative education for pupils, where necessary, that is appropriate and purposeful.
- Reporting to the Governing Body on the effectiveness of this policy.
- Reviewing this policy on a biannual basis.

The PSHCE subject leader is responsible for:

- Overseeing the delivery of the subjects.
- Ensuring the subjects are age-appropriate and high-quality.
- Ensuring teachers are provided with adequate resources to support teaching of the subjects.
- Ensuring the school meets its statutory requirements in relation to the Relationships, Sex and Health curriculum.
- Ensuring the Relationships, Sex and Health curriculum is inclusive and accessible for all pupils.
- Working with other subject leaders to ensure the Relationships, Sex and Health curriculum complements, but does not duplicate, the content covered in the national curriculum.
- **Monitoring the floorbooks used by each year group to collect and present evidence from the children.**
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the Headteacher.

Teachers are responsible for:

- Delivering a high-quality and age-appropriate Relationships, Sex and Health curriculum in line with statutory requirements.
- Using a variety of teaching methods and resources to provide an engaging curriculum that meets the needs of all pupils.
- Ensuring they do not express personal views or beliefs when delivering the programme.
- Modelling positive attitudes to Relationships, Sex and Health education.
- Responding to any safeguarding concerns in line with the Child Protection and Safeguarding Policy.
- Acting in accordance with planning, monitoring and assessment requirements for the subjects.
- Liaising with the SENCO to identify and respond to individual needs of pupils with SEND.
- Working with the PSHCE subject leader to evaluate the quality of provision

### **3. Organisation of the curriculum**

Every primary school is required to deliver statutory Relationships Education and Health Education. The delivery of the relationships education and of health education coincide with one another and will be delivered as part of the school's PSHCE curriculum.

For the purpose of this policy:

- "Relationships and Sex Education" is defined as teaching pupils about healthy, respectful relationships, focussing on family and friendships, in all contexts, including online.
- "Health Education" is defined as teaching pupils about physical health and mental wellbeing, focussing on recognising the link between the two and being able to make healthy lifestyle choices.

The Relationships and Health Curriculum has been organised in line with the statutory requirements outlined in the DfE (2019) 'Relationships, Education, Relationships and Sex Education (RSE) and Health Education' [guidance](#).

The Relationships and Health Curriculum takes into account the views of teachers, pupils and parents. The school has organised a curriculum that is appropriate for the age and developmental stages of pupils within each year group. When organising the curriculum, the religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

We are dedicated to ensuring our curriculum meets the needs of the whole-school community; therefore, the curriculum is informed by issues in the school and wider community to ensure it is tailored to pupils' needs.

We consult with parents, pupils and staff in the following ways:

- Questionnaires and surveys
- Meetings
- Newsletters and letters

Any parent, teacher or pupil wishing to provide feedback about the curriculum can do so at any time during the academic year by:

- Speaking to the class teacher in the first instance
- Organising a meeting with the Headteacher.
- Emailing [office@priorsmill.org.uk](mailto:office@priorsmill.org.uk)

#### **4. Consultation with parents**

The school understands the important role parents play in enhancing their children's understanding of relationships, sex and health. Similarly, we also understand how important parents' views are in shaping the curriculum. The school works closely with parents by establishing open communication – all parents are consulted in the development and delivery of the curriculum, as outlined in [section 3](#) of this policy.

Parents are provided with the following information:

- The content of the Relationships, Sex and Health curriculum
- The delivery of the Relationships, Sex and Health curriculum, including what is taught in each year group
- The legalities surrounding withdrawing their child from the subjects
- The resources that will be used to support the curriculum on request

The school aims to build positive relationships with parents by discussing what will be taught, address any concerns and help parents in managing conversations with their children on the issues covered by the

curriculum. Parents are consulted in the review of the curriculum and this policy, and are encouraged to provide their views at any time.

## **5. Relationships Education overview**

### **Families and people who care for me**

By the end of primary school, pupils will know:

- That families are important for them growing up because they can give love, security and stability.
- The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
- That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
- That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
- That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

### **Caring friendships**

By the end of primary school, pupils will know:

- How important friendships are in making us feel happy and secure, and how people choose and make friends.
- The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
- That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
- How to recognise who to trust and who not to trust.
- How to judge when a friendship is making them feel unhappy or uncomfortable.
- How to manage conflict.
- How to manage different situations and how to seek help from others if needed.

### **Respectful relationships**

By the end of primary school, pupils will know:

- The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), make different choices, or have different preferences or beliefs.
- Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
- The conventions of courtesy and manners.
- The importance of self-respect and how this links to their own happiness.
- That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.
- What a stereotype is, and how they can be unfair, negative or destructive.
- The importance of permission-seeking and giving in relationships with friends, peers and adults.

### **Online relationships**

By the end of primary school, pupils will know:

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

### **Being safe**

By the end of primary school, pupils will know:

- What sorts of boundaries are appropriate in friendships with peers and others – including in a digital context.
- About the concept of privacy and the implications of it for both children and adults.
- That it is not always right to keep secrets if they relate to being safe.
- That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other contact.
- How to respond safely and appropriately to adults they may encounter, including online, who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to ask for advice or help for themselves and others, and to keep trying until they are heard.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

## **6. Relationships education per year group**

The school is free to determine, within the statutory curriculum content outlined in [section 5](#), what pupils are taught during each year group.

The school always considers the age and development of pupils when deciding what will be taught in each year group. A progressive curriculum is planned, in which topics are built upon prior knowledge taught in previous years as pupils progress through school, with a view to providing a smooth transition to secondary school.

### **Reception**

- Initiates conversations, attends to and takes account of what others say
- Explains own knowledge and understanding
- Asks appropriate questions of others
- Takes steps to resolve conflicts with other children by finding compromises
- Plays co-operatively, taking turns with others
- Takes account of one another's ideas about how to organise an activity
- Shows sensitivity to others' needs and feelings and form positive relationships with adults and other children

### **Year 1**

Communication- Talking about emotions. Sharing opinions. Co-operation and good manners.

Fairness – What is fair and unfair? What is right and wrong? What is kind and unkind?

Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.

### **Year 2**

Family and friends – Mutual respect.

Respecting differences and similarities between people.

Cultural differences.

Considering other people's point of view.

Who are the people that care for us?

Different relationships and their characteristics.

Bullying – Define bullying. Types of bullying. How does our behaviour affect others? Impulsive and rational behaviour. Who can help me if I feel bullied?

### **Year 3**

Communication- Recognising ways to communicate effectively. The importance of listening skills. Expressing opinions.

Collaboration – Understanding the importance of working together. Effective leaders. Working together on shared goals.

Healthy Relationships – The features of a good friend. Positive friendships. Recognising that friendships have ups and downs that need working through.

### **Year 4**

Bullying – The difference between a one off incident and bullying. Self-worth and esteem. Resilience.

Similarities and differences – Understand we are connected by similarities. Different types of family.

Cultural differences. Tolerance of faith.

### **Year 5**

Communication – Confidentiality. Speaking and listening skills.

Collaboration – Teamwork. Shared goals. Community spirit.

### **Year 6**

Similarities and differences - Race and ethnicity. Gender stereotypes. Different cultures.

Healthy relationships – Respecting personal space. Appropriate physical contact. Changes in relationships as we grow. Marriage. Online relationships.

Recognising healthy/unhealthy relationships. Dealing with negative relationships.

## **7. Health Education overview**

The focus at primary level is teaching the characteristics of good physical health and mental wellbeing.

### **Mental wellbeing**

By the end of primary school pupils will know:

- That mental wellbeing is a normal part of daily life, in the same way as physical health.
- That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
- The scale of emotions that humans experience in response to different experiences and situations.
- How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- How to judge whether what they are feeling and how they are behaving are appropriate and proportionate.

- The benefits of physical exercise, time outdoors, community participation, and voluntary and service-based activity on mental wellbeing and happiness.
- Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.
- How isolation and loneliness can affect children, and that it is very important they seek support and discuss their feelings with an adult.
- That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
- Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.
- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

### **Internet safety and harms**

By the end of primary school, pupils will know:

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why some social media, some computer games and online gaming are age-restricted.
- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information, inclusive of that from search engines, is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

### **Physical health and fitness**

By the end of primary school, pupils will know:

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
- The risks associated with an inactive lifestyle, including obesity.
- How and when to seek support, including which adults to speak to in school, if they are worried about their health.

## **Healthy eating**

By the end of primary school, pupils will know:

- What constitutes a healthy diet, including an understanding of calories and other nutritional content.
- The principles of planning and preparing a range of healthy meals.
- The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on health.

## **Drugs, alcohol and tobacco**

By the end of primary school, pupils will know the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

## **Health and prevention**

By the end of primary school, pupils will know:

- How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
- About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
- The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.
- About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
- About personal hygiene and germs, including bacteria and viruses, how they are spread and treated, and the importance of hand washing.
- The facts and science relating to immunisation and vaccination.

## **Basic first aid**

By the end of primary school, pupils will know:

- How to make a clear and efficient call to emergency services if necessary.
- Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

## **Changing adolescent body**

By the end of primary school, pupils will know:

- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- About menstrual wellbeing and key facts relating to the menstrual cycle.

## **8. Health education per year group**

The school is free to determine, within the statutory curriculum content outlined in [section 7](#), what pupils are taught during each year group.

The school always considers the age and development of pupils when deciding what will be taught in each year group. A progressive curriculum is planned, in which topics are built upon prior knowledge taught in previous years as pupils progress through school, with a view to providing a smooth transition to secondary school.

### **Reception**

Know and talk about the different factors that support their overall health and wellbeing: - regular physical activity - healthy eating - tooth brushing - sensible amounts of 'screen time' - having a good sleep routine - being a safe pedestrian.

Further develop the skills they need to manage the school day successfully: - lining up and queuing - mealtimes - personal hygiene.

### **Year 1**

Hygiene – Dental, handwashing and keeping clean.

Emotions – Recognising emotions. Understanding actions have consequences. Identifying aspirations.

### **Year 2**

Healthy lifestyles – Healthy eating and physical activity.

Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene

### **Year 3**

Health – Different types of health. Coping with feelings and emotions. What is a balanced lifestyle?

Aspirations – Identifying strengths. Setting goals.

Safety – E-safety and online safety.

NSPCC – PANTS lesson (the underwear rule) name body parts and know which parts should be private, know the difference between appropriate and inappropriate touch

### **Year 4**

Health and lifestyle – Sticking a balance between physical activity and nutrition. Life style choices.

Understanding the difference between wants and needs. Sleep.

Nutrition and food – Balanced diets and preparing healthy meals.

Emotions – Lose and separation. Talking about emotions. Isolation and loneliness. Changes in the family. Self-respect.

Growing and changing – Recognising people grow at different rates. Losing teeth.

First aid – How can I help? Emergency calls.

NSPCC – PANTS lesson (the underwear rule) - understand that they have the right to say “no” to unwanted touch, start thinking about who they trust and who they can ask for help.

## **Year 5**

Health – Mental health. The benefits of active lifestyles. Physical illness. Vaccinations.

Emotions – Death and grief. Managing conflict

## **Year 6**

Food choices – What is a healthy diet? Planning health meals. Calories and nutritional content.

Aspirations – Recognising strengths. Reflecting on achievements. Setting goals.

Safety – Drugs and alcohol. Tobacco. Substance abuse. Basic first aid. Internet safety.

## **9. Sex education**

All pupils must be taught the aspects of sex education outlined in the primary science curriculum – this includes teaching about the main external parts of the human body, how it changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals. The correct terminology for parts of the body will be taught from Early Years as appropriate including ‘penis’ and ‘vagina’.

The school is free to determine whether pupils should be taught sex education beyond what is required of the national curriculum. At our school, we **do not** teach pupils sex education beyond what is required of the science curriculum.

The age and development of pupils is always considered when delivering sex education.

### **Year 2**

Changing and growing – What is the difference between boys and girls? Changes as we grow up.

Recognising needs as we grow.

### **Year 5**

What happens during puberty and why this is important

## **10. Delivery of the curriculum**

The Relationships, Sex and Health curriculum will be delivered as part of our PSHCE curriculum.

Through effective organisation and delivery of the subject, we will ensure that:

- Core knowledge is sectioned into units of manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

Teaching of the curriculum reflects requirements set out in law, particularly the Equality Act 2010, so that pupils understand what the law does and does not allow, and the wider legal implications of the decisions they make.

At the point we consider it appropriate, we will ensure that LGBTQ+ content is integrated into the Relationships, Sex and Health curriculum, rather than delivered as a standalone unit or lesson.

Teachers will ensure lesson plans focus on challenging perceived views of pupils based on protected characteristics, through exploration of, and developing mutual respect for, those different to themselves.

Teachers will ensure that pupils' views are listened to and will encourage them to ask questions and engage in discussion. Teachers will answer questions sensitively, honestly and in a manner appropriate to the pupil's age.

Teachers will ensure pupils are aware of the expectation of them to participate sensitively and respectfully in class discussions of sensitive issues.

Teachers will stop full class discussions where pupils begin to reveal personal, private information related to sensitive issues. If teachers feel concerned about anything shared by a pupil, they will follow the appropriate response as laid out in the Child Protection and Safeguarding Policy.

The programme will be designed to incorporate all pupils, and activities will be planned to ensure all are actively involved.

Teachers will focus heavily on the importance of healthy relationships, though sensitivity will always be given as to not stigmatise pupils based on their home circumstances.

## **11. Working with external experts**

External experts may be invited to assist from time-to-time with the delivery of the programme and will be expected to comply with the provisions of this policy. The intended use of external experts is to enhance the curriculum delivered by teachers, rather than as a replacement for teachers.

Before delivering the session, the school will:

- Ensure the lesson the external expert has planned fits with the school's planned curriculum and this policy.
- Ensure the expert's credentials are checked before they are able to participate in delivery of the curriculum, in line with the Visitor Policy.
- Discuss the details of the expert's lesson plan and ensure that the content is age-appropriate and accessible for the pupils.
- Ask to see the materials the expert intends to use, as well as a copy of the lesson plan, to ensure it meets all pupils' needs, including those with SEND.
- Agree with the expert the procedures for confidentiality, ensuring that the expert understands how safeguarding reports should be dealt with in line with the Child Protection and Safeguarding Policy.

## **12. Equality and accessibility**

The school understands its responsibilities in relation to the Equality Act 2010, specifically that it must not unlawfully discriminate against any pupil because of their protected characteristics. These include:

- Age
- Sex or sexual orientation
- Race
- Disability
- Religion or belief
- Gender reassignment

The school is committed to making reasonable adjustments wherever possible to promote accessibility and inclusivity of the curriculum. The school understands that pupils with SEND or other needs, such as those with social, emotional or mental health needs, are entitled to learn about Relationships, Sex and Health education, and the programme will be designed to be inclusive of all pupils.

In order to foster healthy and respectful peer-to-peer communication and behaviour between all pupils, the school implements a robust Behaviour Policy, as well as a Child Protection and Safeguarding Policy, which set out expectations of pupils.

The school understands that Relationships, Sex, and Health Education may include topics which are triggers for teaching staff, and could relate to historic, recent, or current trauma. If this is the case, the school encourages staff to approach their line manager or the school's designated wellbeing lead to discuss this.

## **13. Curriculum links**

The school seeks opportunities to draw links between Relationships, Sex and Health Education and other curriculum subjects wherever possible to enhance pupils' learning. Relationships, sex and health education will be linked to the following subjects in particular:

- **Science** – pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.

- **Computing and ICT** – pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support.
- **PE** – pupils explore various physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.
- **PSHCE** – pupils learn about respect and difference, values and characteristics of individuals.

#### **14. Withdrawing from the subjects**

Relationships and health education are statutory at primary and parents do not have the right to withdraw their child from the subjects.

As sex education is not statutory at primary level, other than what must be taught as part of the science curriculum, parents have the right to request to withdraw their child from all or part of the sex education curriculum.

#### **15. Behaviour**

The school has a zero-tolerance approach to bullying. We aim to foster a culture based on mutual respect and understanding for one another.

Any bullying incidents caused as a result of the Relationships, Sex and Health Education programme, such as those relating to sexual orientation, will be dealt with as seriously as other bullying incidents within the school. These incidents will be dealt with following the processes in our Behaviour Policy and Anti-Bullying Policy.

The Headteacher will decide whether it is appropriate to notify the police or an anti-social behaviour coordinator in their LA of the action taken against a pupil.

#### **16. Staff training**

All staff members at the school will undergo training to ensure they are up-to-date with the Relationship, Sex and Health Education programme and associated issues.

Training of staff will also be scheduled around any updated guidance on the programme and any new developments.

#### **17. Confidentiality**

Confidentiality within the classroom is an important component of Relationships, Sex and Health Education, and teachers are expected to respect the confidentiality of their pupils as far as is possible. Teachers will, however, alert the Headteacher about any suspicions of inappropriate behaviour or potential abuse as per the school's Child Protection and Safeguarding Policy.

Pupils will be fully informed of the school's responsibilities in terms of confidentiality and will be aware of what action may be taken if they choose to report a concern or make a disclosure. Any reports made during lessons, or as a result of the content taught through the curriculum, will be reported to the DSL and handled in accordance with the Child Protection and Safeguarding Policy.

### **18. Monitoring quality**

The PSHCE leader is responsible for monitoring the quality of teaching and learning for the subjects which will include a mixture of the following:

- Lesson observations
- Learning walks
- Work scrutiny/**Floorbook monitoring**
- Lesson planning scrutiny

### **19. Monitoring and review**

The Governing Body is responsible for approving this policy.

This policy will be reviewed on a biannual basis by the PSHCE subject leader and Headteacher. The next scheduled review date for this policy is **Summer 2025**. This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing.

Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.
